

Benefits

- The only Single Sign On option for Dynamics GP. User can use their AD credentials for login.
- Provision from AD groups to GP roles simplifying GP provisioning.
- Users synced to AD for better user control between AD & GP.
- Disable user access through standard IT functions in AD.
- Reduce Microsoft Dynamics license needs with the auto logout after inactivity feature.

About Fastpath

Fastpath Assure is a cloud-based risk and compliance management platform that helps organizations track, review, approve, and mitigate user access and Segregation of Duties (SOD) risks. Fastpath helps companies achieve process efficiency, reduced costs, and enhanced control over their fraud, auditing, and compliance management efforts.

Config AD for Microsoft Dynamics GP

Most on-premises ERP security is a silo disconnected from the rest of the organization's security. The Fastpath Config AD module integrates Microsoft on-premises ERP products and Active Directory for efficient IT security management. Fastpath Config AD gives a company's administrator the option to connect ERP users with Active Directory (AD) users and ERP roles to AD groups. This makes it easy to assign ERP user security in a way that is familiar to the IT department.

Features

- Manage Microsoft Dynamics on-premises ERP security via Active Directory groups.
- Improves system security by eliminating the need of "sa" or Administrator.
- Active Directory user disables/deletes are automatically synchronized with Microsoft Dynamics products.
- Leading single sign-on (SSO) product for Microsoft Dynamics.
- Allows users to synchronize Windows IDs and passwords with Microsoft Dynamics.
- Windows password policy enforced for Microsoft Dynamics logins.
- Logoff users after periods of inactivity.
- Compatible with Citrix, Terminal Services, Remote Desktop Services, and Virtual Machines.
- Manage Microsoft Dynamics CRM and GP user provisioning from one window.

With streamlined processes and consistent roles, Fastpath Config AD has provided a more secure environment.
